emplating the same routine. Cape May has the lead this summer as far as notables are concerned. Among the arrivals daily are a great number of people who never before visited the Cape. Yet Cape May has been a resort for just about 90 years, and even be-fore that it was a resort for those who wanted to enjoy good fishing. Benjamin Franklin visited Cape May when he lived in the Quaker City, and to-day the most promi-nent cottager is another Benjamin-Harri-

The President was not expected to-night, and the family is looking for him probably next Saturday evening, when he may bring with him Secretary of the Navy Tracy and Postmaster General Wanamaker. Mrs. Postmaster General Wanamaker. Mrs. George E. Williams, wife of General Williams, of the army, and Miss Ella Warfield, of Washington, who will be Mrs. Harrison's guests for a week or two more yet, are great favorites at the Cape, or rather Cape May Point, the suburb of Cape May proper, in which the Presidental cottage is located. Miss Warfield is a pretty little woman, of graceful figure and beautiful complexion, between a blonde and brunette. Wanamaker Will Be Late.

Postmaster General Wanamaker will not ecupy his cottage here until late this year, if at all, because his wife and daughters are bsent in Europe. Then there are two very interesting ladies from the White House in Europe, which also has taken away some of the social light for the season. They are Mrs. Russell B. Harrison and Mrs. J. R. Mc-Kee. They are expected to return late in the summer, and may spend early autumn with the family at the cottage. The open fireplaces, which were placed in the cottage this spring, were put there for the accommodation of the family in the cool days of early autumn.

There lies on the table in the parlor of the Star Villa a very old book, the property of General Havemeyer, of Chicago, who ran across it in St. Augustine, Fla., last winter. It is a "History of the Wars of the Netherlands," by Emanuel Von Meteren, and embrages a period from 1592 to 1895. It was published in Amsterdam, Holland, in 1927 by Johann Janson. In it there is a good map of the Netherlands of those days and a portrait of Emperor Charles VI. The book is printed in German text, and in clear type, and is about five inches thick, twelve inches long and seven inches wide. The book is supposed to have been brought to St. Augustine long before the American Revolution.

Mr. Havemeyer is spending the season here. He was formerly owner of the Chicago Evening Telegram, which is now merged into a prominent Chicago paper.

A very curious pair of little animals are here. They are the pair of Shetland ponies lately owned by Mrs. O'Shea, now Mrs. Parnell. They were brought to this country not long since, and a Cape May man, A. T. Haynes, secured them and brought them to this resort. They are now driven along the cool avenues daily. The ponies are somewhat smaller than the average Shetland, very cumning and exceedingly pretty. One has a very high stiff main, while the other has beautiful spots upon its body.

The Railroad Accommodations.

The Railroad Accommodation The regular summer train service was puin effect on the Pennsylvania route yester-day. The trains, while running at almost the same time as last year, are a little more convenient for travelers coming to and going from the resort. A new syndicate was formed this week

which will erect immediately 15 new cot-tages and a hotel, and will probably spend within the next six months over \$100,000 at-this resort. The place selected is on the grounds on which the celebrated Mount Vernon Hotel stood. The hotel was at the time the largest one in the United States and was burned 34 years ago. James E. Taylor, a prominent coke man, citizen and late Re-publican candidate for Mayor, was the man who effected this organization for building up the barren place. The new beach drive is also being built and will be finished by July 10. July 10.

have spared no pains, and music-loving guests will find a rich treat in the morning concerts which will be given every day.

There are not many cottages in use yet, but new ones are being filled every day. Mrs. David Park, of Washington, D. C., arrived yesterday morning, and will reside in the Park cottage, while the Painter cottage will be occupied by Mr. Park Painter and family, of Pittsburg.

Masters Austin and Turner Moorehead contage Wednesday.

Mrs. Stewart Brown has taken the Watson cottage, and the Shaw cottage will be the summer home of Mr. and Mrs. William R. Thompson. For several days past the servants of Mrs. L. W. Dalzell have been getting the Chalfant cottage ready for occupancy, and Mrs. Dalzell herself arrived yesterday morning. All these hail from Pittsburg.

Probably the most noteworthy guest now at the hotel is "Lieutenant Shizuka Nakamura, Imperial Japanese Navy, Naval Attache to the Legation of Japan, Washington, D. C." (This is a correct copy of his card.) He is spending a few days here preparatory to making a tour of the varions from works of this State. He has been in America about nine months. He is anxious this summer to visit as many places of pleasure and interest as possible, and professes himself highly pleased with Cresson. He will leave next week for Pittsburg, where he will be joined by other members of the Legation, who will accompany him on his tour of observation. He told me that I might expect to see the secretary of the Legation at Cresson during the summer.

For some reason or other it is being generally understood that President Harrison will come here some time next month, but no official assertion to that effect is made.

A large party of excarsionists from Philadelphia arrived Friday evening. It made a big difference in the appearance of the hotel, which had looked rather empty in the early part of the day, but was very comfortably filled in the evening.

Among the guests at the hotel now are Dr. and Mrs. G. W. Baniley, New Jersey; Miss M. S. Wallis, Nottingham, England; Mr. and Mrs. A. H. Gallatin and family, New York; S. V. Hora and wife, Denver, Col.; Miss Lois and Miss Hafferick, San Francisco, Cal.; Mr. Rodney C. Dewey, Mrs. Fitch Dewey and Miss A. B. Dewey, Toledo, O.; Dr. A. H. Cottage rentals are a little behind this summer, still all of the best and highest priced summer residences had been taken long ago.

A few years the best cottage between Elberon and Atlantic City could be rented for the summer for less than \$50: now there are dozens of plegant establishments leased, with furniture, stables, horses and carriages, and even servants, for \$5.000 for three months. Ocean Grove, the twin resort of Asbury Park, begins its season of religious and educational assemblies with the services to-morrow, Sunday. The great open-air auditorium, the Bishop Janes Memorial Tabernacle, the Young People's Temple and the various subsidiary edifices on this celebrited camping ground will be thrown open to the thousands of visitors from all parts of the world. The morning service in the auditorium will be delivered by the Rev. James E. Smith, D. D., pastor of the State Street Methodist Episcopal Church of Trenton, New Jersey, and formerly a popular clergyman stationed at times in the cities of Western Pennsylvania.

In the afternoon the Rev. Dr. Alday, of Philadelphia, and the Rev. Dr. Alday, of Philadelphia, and the Rev. Dr. Wilson, of Allegheny, will assist in the organization of the great summer Sunday school, which has an average attendance in July and August of 5,000 persons. They will be particularly interested, moreover, in the reassembling of the summer class for Bible study, which has an attendance of 1,500 adults.

The Rev. Charles H. Tatman, the evangelist, whose name has become a household word in hundreds of Pennsylvania towns, will not conduct the young people's meetings this summer. He was the organizer and leading spirit of this notable feature of Ocean Grove's religious side and his connection with it extends over a number of years. His place will be filled by a young clergyman with exceptional gifts for this department. The evening sermon to-morrow will be deirvered by Rev. Charles J. Young, of Elberon, President Garfield's pastor.

Mrs. J. S. Collins, a Methodist lady of wealth and influence, from Allegheny City, cess of the new auditorium which is pro-

Grove. She is greatly interested in the success of the new auditorium which is proposed to be erected on the site of the present one. The new edifice, as planned, will seat 12.000 people. Several thousand more will be able to place camp-chairs or to stand within hearing distance of the eminent clergymen and laymen who will speak here.

Mrs. Ida J. Few, of Thornburg, Pa., has brought her family to the Berwin cottage in Asbury Park.

Dr. O. B. Gauze, a noted medical man of Wilmington, formerly of Pittsburg, has leased the summer villa of Mrs. Taylor, at 308 Asbury avenue.

The Rev. Dr. Jesse W. Brooks, a clergyman of the Reformed Church, recently arrived here from his home on the Monongaheia river, and has secured a fine cottage on Fourth avenue, near the sea.

Many Pittsburg people have engaged rooms at the Sheldon, in Ocean Grove, for July.

Mrs. M. A. Verner, Mrs. C. P. Bailey, Miss Ella Bailey, Miss Alice Verner, Miss Catharine Verner, Miss Irene Gilman and J. Parke Verner, all of Pittsburg, have been at the Sheldon, Ocean Grove, since the middle of June, and will remain for some time to come.

Mr. and Mrs. James Evans and Messrs. Thomas M. Evans, John K. Evans, Alan S. Evans and James Evans, Jr., are leading society and business people of Wilkesporte, Pa., who are entertained at the Sheldon in Ocean Grove.

Fortunately for the young ladies of the school party the Scalp Level people have long since become perfectly familiar with the spectacle of groups of artists at work in and about the village, and therefore those who might feel a degree of annoyance because of the attention usually bestowed upon an artist at work are saved this experience. A sketching umbrella attracts little or no attention in the Pennsylvania Barbizon. The young ladies will doubtless bring with them, when they return to the city next week, many sketches of merit, together with healthy complexions and pleasant recollections of the most successful summer outing thus far inaugurated by the Art School.

The choir, composed principally of the relatives of the party, entertained the fasionable audience with selections from Haydn and Lejeal's mass. The solo of Mrs. Lawrence Heyl in Verdi's "Magnificat," was most exquisitely rendered. Just about noon the services concluded and the party drove to the future residence of the groom on Baum street, East End, where a sumptuous collation was spread. Au affair during the past week that drew together a very large assemblage of Braddock's society people was the celebration at the All Saints' P. E. Church. Sixth street, Braddock, on Wednesday, of "The Feast of the Nativity of St. John the Baptist." The services were conducted by the Right Rev. Cortlandt Whitehead, D. D., Bishop of the Pittsburg Diocess of the P. E. Church, who also celebrated the beautiful pontifical form of holy communion, assisted by his assistant, Rev. C. A. Bragdon, D. D., and Rev. Dr. Ingraham N. W. Irvine, pastor of All Saints' Church. The church was finely decorated with blooming plants, flowers and exotics and the music, which was of a very high order, was furnished by an augmented surpliced choir. The Bishop was accompanied by eight or nine other prominent Episcopal Church dignitaries. All Saints' Church boasts of one of the most fashionable congregations in Braddock, and the immense attendance of gayly and fashionably attired maidens at the service Wednesday would certainly carry out that conceit. The Bishopric party, with a large number of their flends from this city, were agreeably entertained at dinner by Mrs. M. E. Kinsey, mother of Mrs. Charles M. There the commencement is the event of the year, and is usually held in the open air, where the undergraduate and the open air, where the undergraduate and the "college widow" flourish about as largely as the graduates themselves and have any amount more fun. The latter are not compelled to remain within hearing distance of the orators and essayists, but can wander afar; still enjoying the crowds, the music, and the excitement, but enjoying far more the little clints under some wide spreading tree that savor of "You'll be true to me," and mean so much just at that moment, when the summer months look an eternity. It is so hard for a budding collegian to go to a distant home and leave his sweetheart for two whole months; mother and sisters are found wanting when weighed in the balance with the rosy-checked maiden in the white frock.

As to the exercises from a literary point, they are much the same wherever they may be held; and though the graduation essay or oration always has been and always will be the subject for the paragrapher's wit and for mock signs and groans, yet what writer or philosopher embedies the freshness and originality in his writing that does the average college boy or girl. School books are thrown aside and summer vacation has been ashered in with excursions and picnics and the great jubilee day. What a day the latter is to the little ones! All the pleasures of circus day, Decoration Day and Fourth of July do not in the aggregate equal a real healthy jubilee day. The little merrymakers are so important on that particular day, and they assume such a Jay Gould expression as they flit here and there and everywhere in the park regardless of the "keep off the grass" sizns or of the sternleoking policeman excepting as he may contribute to their comfort or enjoyment in some way. thing, Fishing and Everything Else on Now at Atlantic City. [SPECIAL TELEGRAM TO THE DISPATCH.] ATLANTIC CITY, June 27 .- The chief charm about this place to the metropolitan visitor is the fact that everything goes, and just now everthing is engaged in going with a rapidity that proclaims that the season at the Queen resort of the Atlantic coast is already in full blast. It has been predicted that the present season will be the most prosperous one in the history of this most prosperous watering place, and it is not too early to assert that the chances are all in favor of the prophecy. At any rate the season is far in advance of that of previous years; there are more guests on the island than is usual at this time of year and the

number of daily arrivals is proportionately larger.

The adjournment of the International Homeopathic Convention last Monday made quite a large gap in the colony of sojourners, but the deficit was more than remedied by the later arrivals, which included the Pennsylvania State Editorial Association, nearly 300 strong. The visiting newspaper men arrived Tuesday afternoon, headed by Captain Frank Mortimer, of the New Bloomfield Times, a newspaper man of 25 years' experience and the President of the association. The scribes remained until yesterday afternoon, and during their stay enjoyed a varied programme of entertainment, which included such delectable details as a visit to the elephant at South Atlantic City, and a discourse on "Country Journalism" by Colonel A. K. McClure, the white haired nestor of the Philadelphia craft.

big hauls are heard on the note; porches after dinner. The cause of the backwardness of the fishing season, the spasmodic northers which accompanied the spring months, is disappearing, and the fish are forsaking the Southern waters for the North. There is a little sport to be had in outside angling just now, but in the Inlet the game is not worth the candle, or rather, the bait. In the Thoroughfare however, there is more inducement to the patient angler to acquire a coat of sunburn, for fairly good catches of weakfish, by far the most toothsome of the denizens of these waters, are being made at the proper-tide. One day this week, a guest who had the courage to get up at the unboly hour of 3 a. M., to catch the early tide, was rewarded by reeling in 23 large weakfish within an hour. The fishing from Young and McShea's occan pier, which since its extension has become a great rendezvous for anglers, is also improving, kingfish being the prevailing species of victim. The other day live drumfish, weighing on an average 70 pounds each, were hooked from the end of the pier, but the distance from the deck to the water being so great and there being no gaff at hand, the big prey easily broke the lines and got away in safety.

hand, the big prey easily broke the lines and got away in safety.

It has always been a source of regret to anglers from distant cities, Pittsburg for instance, that they were unable to send fish home to their friends as ocular evidence of the stories to be told later on, and a new schowe has been put in operation to remedy this. A large orib has been sunk in the water beneath the pier in which fishermen may deposit their daily catches until they depart. A record will be kept, and at the expiration of their stay they will receive the number and kind of fish to their credit.

The Bathing Haunts Inrecognizable

The Bathing Haunts Unrecognizable. The number of bathers increases daily as the chill gradually disappears from the water. The Pittsburg visitors who are fond of disporting in the billows will have diffi-culty in recognizing their favorite bathing grounds this year, so great a change has been worked by the eneroachment of the ocean. Every season the beach front is modified by the water advancing or retiring, but this year the alteration of the bathing ground has been unusually large, and in a few instances the freaks of the shifty ocean have damaged the business of bathhouse proprietors to the extent of thousands of dollars. The great mass of people patronize the houses nearest to the best bathing spots, and these are where the surf comes in with long, undulating swells unimpeded by the presence of obstructing sandbars. Last season the favorite locality seemed to be in the vicinity of the foot of Fennsylvania and Virginia avenues, and there were bathers to be found in the greater number, but the crowd will now be compelled to seek other localities, for during the winter an immense sandbar has been formed, which, at ordinary tide, establishes an immense lake of still water, where once the rolling billows broke. The owner of the large bathhouse at this spot has endeavored to remedy the situation by building a long pier, extending from the boardwalk out over the lake beyond the bar, to enable his patrons to reach the surf, but it stoo early to learn the success of his idea.

It is also too early for the advent of those startling and unique bathing eostumes for which the Atlantic City beach is famous. grounds this year, so great a change has been It is also too early for the advent of those startling and unique bathing eostumes for which the Atlantic City beach is famous. The regulation blue flannel suit, with white braid at the knees and hem of the skirt; black stockings that shine like offed ebony when wet: kerchief caps of red or some other brilliant colors, and white canvas slippers, comprise the rig that is most affected by the pretty girls just now. It is too early in the season to sever the ties of conventionality in the matter of bathing suits, and the flash costumes will slumber in trunks or bureau drawers until the timidity bred during the winter social season is displaced by the independent spirit engendered by seashore sojourning.

The Pittsburgers Already There. A tour of the leading hotels reveals the presence of a large number of prominent Pittsburg guests, and this is taken as an auspicious sign of a big season, for it is not often that the early rush attracts many visi-tors from so far away. Pennock Hart, treasurer of MacIntosh, Hemphill & Co., the well-known Pittsburg iron founders, is a recent arrival at the Wiltshire.

Mrs. E. Wiler, of Allegheny, is among the popular guests at the Islesworth.

Andrew Howard, President of the Phonix Glass Company of Pittsburg, is making a pleasant visit to the Jackson House.

S. R. B. Stewart, William C. Ketty and J. W. Robinson are included in the Pittsburg colony at the Seaside House.

George L. McCoy, of the Pittsburg office of the second vice president of Pennsylvania Railroad Company, is sojourning at the De Soto, accompanied by his wife.

Mr. and Mrs. David Hastings, of Allegheny, are being entertained at the Chalfonte.

Mr. and Mrs. C. F. Bingaman, of Allegheny, are making a prolonged stay at Haddon Hall.

W. A. Schmidt, F. M. Christy and B. S. Fahnestock, of Pittsburg, arrived during the week at the Mansion.

their lives, the surf was filled with a score of early bathers during each hour of low tide. The temperature of the sea is 70° to-day.

Few visitors along the New Jersey coast will ever forget the storm of last August and the great tides of the following "Harvest moon," when thousands of tons of Jersey sand were swept away. All winter long has the owner of the riparian rights at Asbury Park, James A. Bradley, of New York, been striving to save and protect his interests from the onslaught of the vigorous Atlantic. Breakwaters, oak piling, cedar planks and iron sheets have strained and bent and then finally broken away under the never-ceasing blows of the captious and powerful surf. But with the ceasing of winter and spring storms, has come a cessation of hostilities, and the ocean in part repays for past impositions by restoring daily great banks of sand and pebbles. The beach will be almost entirely remade at the points where the great inroads of the past months have been made.

The pretty village of Sea Bright lies about 12 miles north of Asbury Park, on the Jersey coast. To aid the sufferers from the disastrous fire last week in the business portion of the place the citizens and visitors about here have contributed a large sum of money, considerable labor and the necessaries of life. A benefit performance at a theater here was given last night and the proceeds donated to the Sea Bright relief committee. Rebuilding is actively going on and the actual loss will be much less than was expected.
